

**Our speaker today is
Traci Bogan, Dreampreneur**

One day, Traci made the daring and unconventional decision to leave life as she knew it and walked away from her earthly possessions, consuming career, unfulfilling relationship and loved ones. She strapped on a backpack and set off to discover the world and her role in it. Over the past ten years, she blazed trails through 50 countries and has adopted a third-world school and a family in need, along the way. She has lived in Hawaii, Alaska, Texas, and China.

Traci's mission is to transform a million "dreamers" into Dreampreneurs using her 7 key formula to help you finally achieve your goals, fulfill your dreams & live with purpose -so you can have, do, and be more than what you believe is possible.

She is a 4 time author, wrote a bill that became law, increasing the Criminal Statute of Limitations for sex crimes on children, and graduated at the top of her class with a degree in marketing at age 38.

Get ready to be transported out of your seats and travel to the nooks & crannies of the world.

Let's welcome... ***Dreampreneur ... Traci Bogan***
